

RECYCLE YOUR "USED" CHRISTMAS TREES

It's "tree-cycling" time!

Williamson County recycles the thousands of Christmas trees into mulch that otherwise would be thrown into our landfill or left to litter a roadside. The mulch is used on our county's schools, parks and county offices landscapes.

Please place in designated area at each location

Dec. 26 - Jan. 15

Your cooperation in removing all ornaments, tinsel, lights, nails, screws, wire, tree stands, bags and any other material that are not part of the tree before dropping your tree off for recycling is greatly appreciated!.
